"Our current obsession is the color yellow! Luminous like sunlight, yellow signifies happiness and warmth, and brilliant yellow can add an unexpected punch to any room. It catches the eye and makes the room feel fresh and alive. Sometimes it's just the unexpected lining of a drapery or maybe it's a canary yellow sofa.... Contemporary or classic, it makes an impact almost anywhere."

"This repurposed vintage and antique mirror reminded me of a "reclaimed" take on the Slope Mirror by Neal Small. It is both a mirror and a unique piece of art. As each one is made of repurposed materials and colors, no two are the same. There is something special about handmade pieces that cannot be replicated: a feeling and an energy imbued by the craftsman."
